Technology

ESG Consulting GmbH

Livry-Gargan-Strasse 6
82256 Fürstenfeldbruck

ESG Group in the top 10 largest technology consultancies and engineering services providers in Germany

The new Lünendonk list places the company sixth in a national comparison.

Fürstenfeldbruck, the 14th of July, 2008

In June 2008, Lünendonk GmbH from Bad Wörishofen presented their latest study into providers of technological consulting and engineering services in Germany. This data compilation is one of the most comprehensive collections of information addressing the "German technological consulting and engineering services" market, a previously under-researched sector. The study contains numerous, in-depth key figures, evaluations and interpretations of this market segment.

ESG Group measured up well against its competitors in this study, making it to sixth place in the top 25 companies in the technological consulting and engineering services sector. The company supports its customers with market and technological analyses, evaluates the feasibility and potential of technological projects and provides consulting services relating to IT design and strategies. In the field of engineering, ESG provides services that cover the entire service life of high-quality systems – starting with studies and analyses, through system development and integration, to logistical services.

ESG Consulting GmbH is a wholly owned subsidiary of ESG Elektroniksystem- und Logistik-GmbH, one of the leading system and software houses in Germany, which has been providing management consultancy services since 1967. Using proven frameworks

and lean consulting programmes, we have successfully designed business processes and system landscapes for many companies from the high-tech and public sectors.
